PROJECTS

E-Commerce Website

React.js, Node.js, Express.js, MongoDB

- Architected a full-stack e-commerce web platform using the MERN stack.
- Engineered 10+ RESTful APIs for product management, user authentication, and order processing using Node.js and Express.js, reducing payload response time by 15%.
- Integrated geolocation services and Razorpay payment gateway, improving address accuracy by 25% and ensuring seamless, secure transaction workflows.
- Developed a scalable admin dashboard to efficiently manage products, user roles, and live order tracking.
- Optimized frontend-backend communication via state management and robust database architecture, boosting overall web application load speeds.

WalkinTrip – Travel Service Website

HTML, CSS, JavaScript

- Designed and developed a travel service website to showcase trips, travel packages, and travel-related services.
- Used **JavaScript** to build interactive UI elements and enhance user engagement.
- Implemented responsive design to ensure smooth user experience across desktop and mobile devices.
- Structured content for services such as travel packages, visa assistance, and transportation solutions.
- Focused on clean UI, smooth navigation, and user-friendly layout following modern web design practices.

EXPERIENCE

SEO Executive | Gliscolab | Mohali July 2026 – Present

- Directed competitive research alongside keyword mapping across multiple client platforms, elevating search rankings and driving a 20% increase in organic search traffic.
- Executed targeted link-building initiatives to secure over 40 authoritative backlinks each month through business directories and relevant community platforms.
- Refined core web copy to align with user search intent, boosting search term positions by 15% during the initial quarter.

Android Developer Intern (Virtual) | AICTE (All India Council for Technical Education) July 2025 – September 2025

- Completed a virtual Android development internship under AICTE.
- Developed Android application components using **Java and Android Studio**.
- Worked on UI design, activity lifecycle, and basic app navigation.
- Gained hands-on experience in **mobile app development and debugging**.

CERTIFICATIONS & LEARNING

- **Smart India Hackathon Prequalifiers**
- **RDBMS PostgreSQL-EduPyramids**
- **Introduction to MERN stack—simple learn**
- **Introduction to Programming using Python – LinkedIn**
- **Oracle SQL Developer - Oracle**
- **Data Fundamentals—IBM**
- **Web Development fundamentals—IBM**
- **Android Development—Intern**
